Verse 1:

C Am7  
Among this sea of people we met by chance  
F C  
Never forgetting how our eyes met with that glance  
C Am7  
Looked at the full moon under the cover of the trees  
F C  
But the forest is never meant for you and I  
Am Em  
Now I'm isolated in this forest maze  
F G  
Tears falling upon parting ways  
Dm Em  
Carrying golden memories to fill our grief  
F E  
Setting off towards our own destinies myth

Chorus:

F C  
When the autumn wind stirred up fallen leaves  
G Am  
It's like the wind stirred up our fond memories  
F G Em Am  
You promised that you'll be back but where are you now  
F G Am  
Let me see the orange sky at dawn

Verse 2:

Waking up in the depths of uncertainty of fate  
Visiting the glass garden that we once create  
Do you remember the starlit moments we had?  
Now in this unending darkness I'm slowly going mad  
  
Now the withered flowers are falling down  
The scenery is painted red  
They once told me nothing will last forever  
If only I could stop the hands of time

[Repeat Chorus]
